Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-21, 26-29 and 31-42 are presented for reconsideration on the merits.

Response to Amendment

The amendment filed July 19, 2010, has been received and entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21, 26-29 and 31-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Keim (USP 4361651), cited on enclosed PTO-1449 Form.

Claims are drawn to processes for wet-mill streams in order to separate protein therefrom.

Keim teaches processes for wet-mill streams in order to separate protein therefrom. See abstract and examples.

The claims are identical to the cited disclosure and, are therefore, considered to be anticipated by the teachings therein.

Response to Arguments

Applicant's arguments filed July 19, 2010, have been fully considered but they are not persuasive. The argument that Keim is directed to a wet milling process is noted, however, the disclosure specifically teaches that the dry milling is envisaged by their invention as well. The reference specifically discloses that high protein

concentrate is desired, note figure 1. Keim may indeed teach other embodiments, however, protein is clearly disclosed to be available for recovery from the disclosed process which encompasses all of the claimed steps, including carrying out the steps under sulfur dioxide conditions. Keim specifically disclose that removal of starch increases the protein concentration and the protein is recovered, note col. 5, lines 55-65. The claims are anticipated by the teachings of the reference and the rejection is sustained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

All claims fail to be patentably distinguishable over the state of the art discussed above and cited on the previously enclosed PTO-892 and/or PTO-1449. Therefore, the claims are properly rejected.

The remaining references listed on the previously enclosed PTO-892 and/or PTO-1449 are cited to further show the state of the art.

No claims are allowed.
